

New Water 90-Day Algaecide

Active Ingredient:

Copper Sulfate Pentahydrate.....52.8%

Other Ingredients:.....47.2%

Total:100.0%

KEEP OUT OF REACH OF CHILDREN

DANGER

FIRST AID:

If in Eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice. **If Swallowed:** Call poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give anything by mouth to an unconscious person. **If on Skin or Clothing:** Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice. **If Inhaled:** Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. Call a poison control center or doctor for further treatment advice. Have the product container or label with you when calling a poison control center or doctor or going for treatment. **Note to Physician:** Probable mucosal damage may contraindicate the use of gastric lavage. In case of medical emergency, call 1-800-424-9300.

Product Description: New Water 90-Day Algaecide is a copper-based algaecide that prevents all types of algae in swimming pools up to 25,000 gallons while significantly improving the clarity of pool water and filter efficiency. This product will prevent algae for up to 90 days and is compatible for use with chlorine, bromine, salt generators, UV, or ozone with no effect on pH. It also uniquely contains 4 distinct stain inhibitors to protect pool surfaces.

Directions for Use: It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

Do not use New Water 90-Day Algaecide with any other copper-based products.

1. Before using New Water 90-Day Algaecide
 - a. Clean or backwash your filter and remove all debris from skimmer and pump basket.
 - b. Ensure the filtration system is working properly and the filtration cycle is adequate.
 - c. Make sure water is balanced with pH at 7.2-7.8 and Total Alkalinity at 80-120 ppm.
 - d. Have your water tested by a professional for high metal content.
 - i. If copper levels are at 0.2 ppm or less, it is okay to use New Water 90-Day Algaecide.
 - ii. If copper levels are above 0.2 ppm or any other metals are high, follow your dealer's recommendation for reducing these levels before adding this product.
 - e. Adding a routine brushing schedule will help eliminate algae breakouts.
2. Remove from outer packaging. Insert the number of New Water 90-Day Algaecide pods required in the skimmer basket according to the pool sizing chart.

3. For the first 24 hours, run pump and filter continuously to ensure pods fully dispense and the contents have circulated throughout the pool. Do not add any chlorine or other chemicals into the skimmer or pump basket during this time.
4. Remove the empty New Water 90-Day Algaecide and discard in trash or offer for recycling if available. Use a new New Water 90-Day Algaecide every 90 days to prevent algae outbreaks.
5. Do not clean or backwash the filter for at least 2 weeks after adding this product.
6. For maximum performance, run the filtration system at least 8 hours per day and maintain water balancing guidelines:
 - a. pH: 7.2 – 7.8.
 - b. Alkalinity: 80 – 120 ppm
 - c. Cyanuric Acid: 10 – 80
7. Always use with an EPA registered pool sanitizer following the directions for use carefully.
8. If using as a winterizer, proceed to follow your normal pool closing steps.

Pool Sizing Chart	
Gallons	# of New Water Algaecide 24
5,000-10,000	1
10,000-25,000	2

STORAGE AND DISPOSAL:

Do not contaminate water, food, or feed by storage and disposal. **Product Storage:** Store product in original container protected from direct sunlight in a cool, dry place away from children and pets. **Pesticide Disposal:** Product wastes may be hazardous. If these wastes cannot be disposed of by use according to label instructions, contact your local solid waste agency for disposal instructions. **Container Handling:** Nonrefillable container. Do not reuse or refill this container. Rinse thoroughly before discarding in trash or offer for recycling if available.

PRECAUTIONARY STATEMENTS: HAZARDS TO HUMANS AND DOMESTIC ANIMALS: DANGER:

Corrosive: Causes irreversible eye damage. Harmful if swallowed or absorbed through skin. May be harmful if inhaled. Do not get in eyes, on skin or on clothing. Avoid breathing dusts and fumes. Wear goggles, face shield or safety glasses. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet. Remove and wash contaminated clothing before reuse.

PHYSICAL OR CHEMICAL HAZARDS: Do not store near any oxidizing or reducing agents.

ENVIRONMENTAL HAZARDS: This product is toxic to fish and aquatic invertebrates. Treated effluent should not be discharged in lakes, ponds or public water.
