

## Schedule B: Online Sales

- King Technology, Inc. (KTI) does not allow our copyrights, trademarks, trade dress, text, or other intellectual property ("KTI IP") to be used without KTI's authorization, except for fair uses that may not be prohibited under applicable law. Sellers of our products also may not misrepresent any warranty information, nor make any false or misleading statements regarding any affiliation with, or endorsement by, KTI. KTI reserves the right to take any and all permissible action against offending parties in connection with unauthorized use of KTI IP or false or misleading statements, including refusal to supply and legal action as may be permitted by applicable law.
- All KTI products offered for auction online or for sale through an online liquidator or online shopping engine must have a clearly displayed Price that complies with our MAP Policy.
- Statements such as "priced too low to publish" or "click for price" in any online sales environment will be deemed to violate KTI's MAP Policy.
- KTI reserves the right to refuse to supply to any entity that violates KTI's MAP Policy or to any distributor or reseller that supplies such an entity.
- KTI reserves the right to take any action it deems necessary to cause eBay or other auction websites or online marketplaces to remove any display of KTI IP that violates KTI's rights or any listings that do not comply with KTI's MAP Policy.
- Some KTI products may contain a regulated material (such as chlorine or bromine) that must be shipped in accordance with the Department of Transportation's (DOT) specifications for product labeling, packaging and documentation (e.g., 49 Code of Federal Regulation (CFR)). Shipment of these products also may be subject to special handling fees assessed by the freight carriers to ensure proper handling and delivery. Shipment of these products without meeting DOT regulations or the freight carrier's requirements may be unlawful and could subject you to fines or other penalties.
- Some KTI products may contain a US EPA regulated pesticide product (such as chlorine or bromine) that must be handled in accordance to US EPA regulations. It is the seller's responsibility to ensure that pesticides sold over the Internet are labeled according to federal standards and are registered both by the US EPA and any state in which they are distributed before offering them for sale. Refer to the US EPA Fact Sheet on Pesticide Sales in E-Commerce for seller responsibilities.

- It is the reseller's responsibility to comply with these requirements, and to provide its employees and agents with any training and instruction necessary to comply with these important responsibilities. KTI reserves the right to take any action it deems necessary to address a failure to comply with these requirements, including seeking to prevent the advertisement or sale of KTI products on an online auction, online liquidator, online shopping engine or other website and refusal to supply any noncompliant entities.
